

Alcohol & Drug Day Treatment Program

The Day Treatment Program includes Peer Support, Counselling and psychoeducational groups designed to offer education and support for those experiencing difficulties with alcohol and / or other drug use.

The AOD Treatment Program offers 1:1 counselling and group support providing information and opportunities for discussion with the aim of developing skills and a better understanding of how to cease or reduce the harm associated with alcohol and / or other drug use.

The Day Treatment Program is free and provides open and ongoing groups so participants can join at any time. Participants of the day treatment program are also encouraged to attend SMART recovery to help support their progress.

No appointment necessary, just walk on in!
